## RIGHT-OF-WAY MAINTENANCE NOTES

Zielie's Tree Service will be permitting the Gays Mills Substation, east and north circuits, in Crawford County during the month of April.

Badgerland Utility Solutions will continue underground inspections in the Platteville and Harrison Substations during the month of April. They will also continue pole testing in Lafayette County during the month of April. Once completed, they will begin pole testing in Crawford County.

It is important for SREC to maintain its rights-of-way for the following reasons:

- Accessibility for field crews, vehicles and equipment
- Fire prevention
- Reliable electric service
- Quality service with the reduction of outages and blinks
- Safety for workers and the public
- Meeting state and federal code requirements

On a daily basis, SREC employees and contractors may be working throughout the area, and at times on your property, to operate and maintain the electric system and our rights-of-way.

If you have questions, please contact us at 800-236-2141.

# BEFORE YOU DIG IN

Dial 811 or visit [811beforeyoudig.com](http://811beforeyoudig.com) to mark buried utility lines.

## Safety Tip

Power poles aren't bulletin boards. Nails, staples, signs and decorations can injure lineworkers or damage their protective gear and equipment when they climb poles to keep the power on. Keep poles clear to help protect the people who power our community.
